CREDITORS DEMAND A HEARING

Namerous Affidavits Filed in the Catted States Court Recognized by Judge Severens.

Late yesterday afternoon important papers were filed in the United States ert in the case of the Cold Blast Funther company and others squinst Neigon. Matter & Co. and its assigns and merigages. There was filed a petition of the complainants for an injunction restraining the proposed assigner's sale advertised for October 10 and for an injunction against the assignce, the Michigan Trust company, restraining it from in any manner recognizing the mortfor the appointment of a receiver to take for the appointment of a receiver to take charge of all the property and assets, to be cared for and disposed of under the direction of the United States court. A large number of affidavits were also filed in support of the petition. The papers were presented to Judge Severeus by the complainant's solicitors. Smiley. Smith a Stevena and an order was granted directing the assignce and mortgagees to show cause, if any, why an injunction should not issue and a receiver be appointed as asked for. The order also provides that in the meantime the assignce absolutely desist from disposing of the property and assets, except that it may adjourn the proposed sale, and also that it in no way recognize the mortgages to the hearing of the order to show cause on October 16, at 10 a.m. The afficiarits that in support of the petition affiliarits tiles in support of the petition along that a scheme has been conceeded between the assignee, the principal benelicaries under the mortgages and cer-tain officers of Nelsen, Matter & Co. to have the property sold in bulk subject to the mortgages and at a price not excoming 50 per cent of the appraised value of the property. The property was appraised at \$497,000, and the law allows the assignee to sell at 50 per cent of the appraised value. The mortgages appoint to about \$200,000, and it is atited in the bill filed that if the property were sold at assignee sale the amount realized would be less than the martgages and by the payment of el the mortgages could take posses sion of the cottre plant and the other coulding would be left out in the cold. among the affidavite is one from Elms Matter explaining the manner in which the assignment was made. It shows the sesignment was made. It shows that the aight preceding the assignment plans similar to those adopted by the Wichtcomb were under consideration and practically agreed upon, but the following morning the other course was taken. The creditors think that was taken delay payment of their claims. It is also shown that there is \$180,000 worth of manufactured furniture and \$40,000 worth of lumber on hand that can be sold to better advantage in parcels than in bulk at a sale.

secretary Whitney Says the City Folks Did Not Turn Out. While the Farmers Attended Liberally.

Secretary Whitney of the West Michigas Pair association estimates that the deficit from the recent fair will full below \$1000. "That is the best we can hope for," said he yesterday. "Of course if we had known when we held our January meeting that these hard times were coming on we should have abandoned all preparations for the fair. But in July, when some of the directors wanted to give it up, it was too late. The expenses already incurred amounted to more than we have lost by holding the fair. Next year we ought to have better success. If the people in this city had come to the grounds this year, we should have paid expenses, but they didn't. The farmers came. Thursday there were 457 teams within the grounds, but the city folks kept away, and that's how we failed to pay expenses.
